BEGINNING

Computer Aided Costume Design and Dress Making is a professional fashion design discipline that deals with the art of applying design to clothing. This department started in 1978 with 15 intakes and now running successfully with 30 intakes. It has well-developed Infrastructure and laboratory facilities. This Newsletter is started with an objective of knowledge sharing and spreading the various activities carried out by CACDDM department. It is gradually obtaining appreciation of the students, faculty members and readers. This is the fourth volume and first issue for the year 2022-23 of this newsletter is in front of you for genuine readers.

For publishing a newsletter, lots of efforts of faculty members are involved. For delivering better knowledge, skills and activities in performing the practices as well as theories up to the best level and always curious for development of students. This department is committed to give outcomes-based education with definite vision and mission with clear objectives in providing the fashion designer to the nation.

Department having various laboratories such as Clothing lab, Drawing lab, Computer lab and Textile lab. At present total 3 faculties are working in the department. Most of the faculties having Ph.D. qualification and well-experienced.

The teaching is assisted with projector for better understanding of the students. Industrial visits are arranged for Students to gain practical experience. The department toppers have been encouraged by Gold Medal distribution by Silver Jubilee Memorial Trust.
